

Lab - 1

Teammates:

Venkata Subramanya Sri Raviraj Indraganti, Harish Marepalli, Phanith Dodda

Harish Marepalli:

My concentration of study is Security.

My ideal job is Software Engineering and I would like to work at Cisco as a Software Engineer.

My plan for the next 1 year is to:

1. Learn competitive coding.
2. Do some projects on trending technologies to build my skills.
3. Learn software engineering processes to gain the knowledge of real life software engineering.

Phanith Dodda:

My concentration of study is Security - Machine Learning, AI

My ideal job is Software Engineering - I would like to be CEO of my own startup.

My plan for the next 1 year is to -

- 1) I want to take my startup to market and have raised seed round funding
- 2) Able to raise a minimum of 100K revenue.
- 3) Become better at Machine Learning and AI development skills.

Venkata Subramanya Sri Raviraj Indraganti

State the concentration of your study:

Enterprise Software Development, ML, Big Data handling

State your ideal job:

Software Engineer @ Google

What is your plan for the next 1 year?

- 1) Have a strong grip on Data Structures, and design patterns.
- 2) Build my network by networking, and attending conferences
- 3) Complete my current project.
